AND GUIDE TO

SUMMER RESIDENCES

COPYRIGHT, 1920 SAMPSON & MURDOCK CO., BOSTON, MASS.

(See also List of Summer Residents)

Giving the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway, and find that Gould Street runs from 202, and Park Street from 226, showing that 220 would come on the left, between Gould and Park Streets

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist

*Indicates streets accepted. **Indicates part of street accepted

GENERAL INFORMATION

Keys of the Fire Alarm Boxes are placed with the residents in the immediate vicinity of the several boxes, also with all the policemen, and in several locations a Key is hanging on the side of the Box. Citizens will please inform themselves where the Keys are kept—signs giving the required information being placed on the Box

Key holders upon positive information of a fire in their immediate vicinity (nearer to that box than any other), may unlock the box, and IF THE SMALL GONG IN THE BOX IS NOT STRIKING, may pull the hook down ONCE AND LET GO.

Key holders are instructed that a box must never be pulled for a fire seen at a distance, or their key intrusted to boys or irresponsible persons

Persons giving an alarm are requested to remain at the box until the arrival of apparatus and then direct them to the locality of the fire

One stroke on the alarm bells, or two strokes, with an interval between them, indicates that the alarm is being tested

Two strokes preceding the pulling of any box will indicate that the box is pulled by the Chief Engineer to practice the department

The Chief Engineer will use the fire alarm to transmit his orders to the whole department or any detail thereof

The above Details, Signals, etc., will be observed as a General Order, and will supersede all others on and after April 1st, 1907

An Undying Record of Your Business

In a recent law suit involving many thousands of dollars the records of the Boston City Directories of 1870, 1871 and 1872 were accepted as reliable evidence. Such evidence is continually being quoted in important suits. How necessary that proper care should be used by responsible members of the firm that a record having such possibilities should be absolutely correct. It costs but a trifle to insert an advertisement giving all the details and on such a record may hinge in future the disposal of a fortune.

POWER of ADVERTISING

The *City Directory* is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase

If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business

ADVERTISING is the power of an idea multiplied
